

See pages 1–2 for first-time login instructions and page 3 for returning login instructions.

Logging In for the First Time

Step 1: Confirm Your Login Method

- Students can access their Singapore Math Hub account in one of two ways.
- **Your teacher will determine which login method you should use.**
- If you are unsure which method to use, please check with your teacher.
 - **Method 1: Teacher-Created Login Credentials (most common)**
 - Your teacher creates a username and password for you.
 - You will use these same credentials each time you log in.
 - **Method 2: Self-Registration with a Student Access Code**
 - Your teacher gives you a Student Access Code.
 - You use this code once to create your own username and password.
 - After registration, you will log in using the credentials you created.
- Once you've confirmed which login method you should use, go to the applicable section below.

Method 1: Log In with Teacher-Provided Username & Password

Step 1: Get Your Login Information

Your teacher will provide you with a custom username and password. Keep your login credentials in a safe and accessible place, as you will use them each time you log in.

Step 2: Go to the Singapore Math Hub

Open your browser and go to <https://hub.singaporemath.com>

Step 3: Log in Using Your Custom Credentials

- Click “Sign In” (do not click “Sign Up”)
- Enter the username and password provided by your teacher.
 - Tip: Copy and paste your login information exactly as provided by your teacher.
- Click 'Sign In.'

Step 4: Access Your Class

- If your teacher has added resources and assignments, you'll see them on your home screen.
- If your home screen is blank, don't worry. Your teacher may add content soon.

Step 5: Create Bookmarks

- Bookmark the following URLs for future access:
 - **Singapore Math Hub:** <https://hub.singaporemath.com> – For accessing digital subscriptions.
 - **Singapore Math Hub Knowledge Base:** <https://www.singaporemath.com/hub-help> – For how-to articles, answers to frequently asked questions, and more.

Method 2: Self-Registration with a Student Access Code

Step 1: Get Your Access Code

- Your teacher will provide you with a Student Access Code for your class.
- Your teacher may also provide you with guidelines for creating your username.

Step 2: Go to the Singapore Math Hub

- Open your browser and go to <https://hub.singaporemath.com>.

Step 3: On The Login Page, Click the "Sign Up" Button.

- Tip: You will only click the "Sign Up" button this time. After your account is created, always use 'Sign In'.

Step 4: Complete the Registration Form

- Enter the Student Access Code provided by your teacher.
- Enter your personal information.
- Create a username (**do not use your email address as a username**).
- Create a strong password.

Step 5: Click the "Submit" button

- Tip: Keep your login credentials in a safe and accessible place, as you will use them each time you log in.

Step 6: Access to Your Dashboard

- After successful registration, you'll see a "Take me to my home page" message.
- Click the "Take me to my home page" button to access your dashboard.

Step 7: Access Your Class

- If your teacher has added resources and assignments, you'll see them on your home screen.
- If your home screen is blank, don't worry. Your teacher may add content soon.

Step 8: Create Bookmarks

- Bookmark the following URLs for future access:
 - **Singapore Math Hub:** <https://hub.singaporemath.com> – For accessing digital subscriptions.
 - **Singapore Math Hub Knowledge Base:** <https://www.singaporemath.com/hub-help> – For how-to articles, answers to frequently asked questions, and more.

Logging In After Setup

Step 1: Go to the Singapore Math Hub

Open your browser and go to <https://hub.singaporemath.com>.

Step 2: Log in Using Your Saved Credentials

- Click “Sign In” (do not click “Sign Up”).
- Enter your username and password.
- Click “Sign In.”

Step 4: Access Your Class

- If your teacher has added resources and assignments, you'll see them on your home screen.
- If your home screen is blank, don't worry. Your teacher may add content soon.

Additional Tips

Joining Additional Classes

- If you're taking multiple classes using Dimensions Math, do the following:
 - Click on the Class Name dropdown in the upper left corner of your dashboard.
 - Click the "+ Join Class" button.
 - Enter the new class access code provided by your teacher.
 - You can now switch between classes as needed using the dropdown menu.

Resetting Your Username or Password

- If you need to reset your username or password, your teacher can help. Please contact your teacher to request a new username and/or password.
- For future access, be sure to keep your login credentials in a secure and accessible place.
