

Teacher Registration Options

Once an e-subscription order is processed, your school's Singapore Math Hub administrator receives a subscription activation email from school@singaporemath.com. This email includes a Teacher Registration Code and instructions for adding teachers to your school's account.

Administrators may either register teachers directly or share the Teacher Registration Code so teachers can self-register.

- If you receive a Teacher Access Code from your administrator, proceed to the *Teacher Self-Registration* section below.
- If your administrator has already created your account and provided you with login credentials, proceed to the *Logging In* section below.
- If you are unsure about which registration method your administrator has selected, please confirm with your administrator before proceeding.
