

Teachers can use Presentation Mode to display eBook content in class and annotate directly on the pages.

Step 1: Log In

- Log in to your account at <https://hub.singaporemath.com>.
- If your account has multiple roles, select the Teacher role. *You must enter through the Teacher role to use Presentation Mode.*

Step 2: Select Your Class

- Click the “Classes” tab.
- Choose the class that contains the resource you want to present.

Step 3: Open the Resource (Book)

- Click the number next to “Books.”
- Select your desired book (e.g., Textbook 2A).
- Locate your desired chapter and click “Open.”

Step 4: Click “Present”

- Click the “Present” button next to the applicable lesson.
- Choose to create a new presentation or load a saved one.
- Select “Open in New Window” (recommended).

Step 5: Utilize Presentation Tools and Annotation Tools If Needed

- **Presentation Tools**
 - Navigate between pages easily.
 - Use thumbnail view for a full overview.
 - Zoom in and out.
 - Fit page vertically or horizontally.
 - Rotate pages if needed.
- **Annotation Tools**
 - Draw directly on the page using different colors.
 - Highlight important problems or text.
 - Add typed notes to the page.
 - Toggle annotations on or off.
 - Delete annotations if needed.

Step 6: Close or Save Your Presentation

- Once you are done presenting, click “Save” to keep your annotations. Or click “Close” to close without saving.
- To load a previously saved presentation, see step 4 above.
